Mansingh survice meter

Microscope slides & cover glass

Pipettes

Quartz ware

Reagent bottles

Screw cap tubes

Separatory funnel

Sintered ware

Stopcocks

Test/culture tubes

Vials

The background of the slide features a variety of laboratory glassware. On the left, there are several graduated cylinders of different sizes. In the center, a large volumetric flask is partially visible. To the right, a tall graduated cylinder with markings from 200 to 1600 is prominent. In the foreground, a water distillation unit is shown, consisting of a glass flask connected to a glass tube with a stopcock valve, which is positioned over a small white container. The entire scene is set against a light blue background.
